

NanoGreens¹⁰ Testimonials

"Since I started using NanoGreens 10, I have perceived a **positive improvement in my immune system** that has allowed me to **recover faster** after my track workouts. Taking NanoGreens 10 twice a day has provided me with the extra vitamins, fruits and vegetables my body requires to complete my training routine."

Jimmy Pino, Colombian Olympian - 2000 Olympic Games (100-200 meter), Nine-time Colombian record holder, Two Time-South American Champion

"I am 57 and have been training very hard for the Ringside World Boxing Championship in August. I plan on winning the heavyweight belt this year! I have been taking NanoGreens10 for a few months now and **I have not since been afflicted by the colds and flues** that usually surround my day as a practicing dental surgeon. Recently, I have felt an unusual amount of fatigue. However, after increasing my consumption of NanoGreens10 to twice daily and resting, **I am feeling my strength return in just 2 days!**"

" Just to let you know I got a phone call from a friend of a patient who started with NanoGreens10 and cannot believe the results: lost weight, feels great, and wants to talk to her psychiatrist about **reducing her medications**. She also wants her mother who has diabetes to try it!"

"Thank you again for NanoGreens10. This is **the first winter that I did not get sick** and the only thing I have done differently is my NanoGreens10 every morning! My daughter, a snow boarder, is now enjoying it; plus a friend that uses our Endless Pool is now taking every morning and loves it, too! "

"**This NanoGreens10 stuff is awesome!** I have been taking it over the last 2 months and the results for me have been fantastic. I coach baseball, and find myself throwing 200-300 pitches a couple of times per week during batting practice. I have always had shoulder soreness and work-out recovery has always been slow. I have been on "green" supplements for the past three years, starting with "GREENSFirst" and then "New Greens". **Neither of those seem to work for me as well as the NanoGreens10.** Since beginning the NanoGreens10 regiment, my shoulder recovers in about 24 hours. Before it was 48 hours at best and lots of Advil. **I do not take the Advil any more!** "

"When my husband introduced me to NanoGreens10 **I was skeptical**. I have had some terrible experiences with foul tasting green drinks in the past. But I am delighted to say that NanoGreens10 is unlike anything I have ever tried... in a good way! It is such a delicious way to start the day, and seems to give my skin a vibrant youthful glow. **Now I recommend NanoGreens10 to every client who comes through the office!**"

"I received the 7 day sample packs and **"WOW!" this is a GREAT product!** I cannot wait to give my patients, family, and friends a sample pack! They will undoubtedly have the same reaction and will want to purchase more. Thank you for creating such a healthy and great tasting product to promote health."

"I have been using NanoGreens10 in my office for over 2 years. It has increased my energy two-fold and has even **actually decreased some grey hair** that I have in the past been having. My patients love the taste and usually put a standing order for the next batch that we order so they are assured to get one. **My patients feel the results** of that much nutrition! Really a phenomenal product!"

"NanoGreens10 is an essential part of the dietary supplementation for the KMA Pacific Southwest AAU Karatedo team. It has been a **major factor in the performance and recovery for our athletes** both in training and in competition. I strongly recommend NanoGreens 10 to all athletes in both enhancing their overall fitness and maintaining optimal health."
