Anti-Aging and Immune Booster*

Super Nano-Green Tea™
Highly Bioavailable Immune and Anti-Aging Support*

Super Nano-Green Tea™
Key Benefits

- "Nanized" Green Tea: a revolutionary, highly absorbable concentrate so you can receive all of green tea's amazing benefits
- Promotes healthy immune system function*
- Supports healthy blood pressure, blood sugar, cholesterol within the normal range and fat levels*
- Powerful antioxidant; helps prevent AGES (Advanced Glycation End-Products)
- Remarkable support for healthy connective tissue and joint flexibility*
- Delivers a whopping 105 mg of polyphenols per serving

Other green teas may have less than 10 mg or none.

Quantum-State Green Tea Concentrate
for the Whole Family

Centuries of Use

Green tea has graduated from the teapot to the medicine chest as science has shown its wide-reaching effectiveness in addressing concerns ranging from sunburn to life-threatening problems. Research conducted in the last 20 years has confirmed that green tea, known primarily as a pleasant beverage around the world, contains a long list of very impressive phytonutrients that traditional healers have been tapping into for centuries.

Super Nano-Green Tea™ is the natural choice, unleashing all of green tea's powerful benefits not just for those with good digestion and absorption, but for literally everyone. It is the first nutraceutical preparation designed to assure absorption of the full spectrum of green tea's awesome polyphenols. Using only quantum-state quality, organic green tea that has been "nanized" (i.e. pre-digested into extremely small particles), Super Nano-Green Tea™ is rapidly absorbed into the blood stream where it immediately goes to work. Even those with poor digestion can enjoy the full benefits of Super Nano-Green Tea™’s highly bio-available nutrients. No other form of green tea can offer such a quantum boost in phytonutrient bioavailability and quality.

Green Tea vs. Black Tea

Green tea has become famous for its spectacular benefits in comparison with black tea. What’s the difference between green tea and black tea? Although both teas come from the same plant (Camellia sinensis), it is the processing that makes the key difference. Green tea leaves (harvested as young, healthy, dark green leaves) are steamed to prevent them from fermenting, keeping their green color and potent phytochemi-

What is “nanized” green tea?

The word “nano” means very, very small. A “nanized” concentrate of green tea contains grade 10 green tea that has been “nanized” or pre-digested into very, very small particles which makes them extremely bio-available. Even those with poor digestion can rapidly absorb the “nanized” green tea. Super Nano-Green Tea™ really demonstrates the power of the old saying, it’s not what you take, but what you absorb that makes the difference.

The Quantum Nutrition Effect

100% premier quality nutrients (exquisitely well grown and toxin-free), which promote the most rapid shift to ideal cellular resonance for great health.

Long Natural Health

-cals intact. In contrast, black tea is really green tea that has been over-fermented, thus changing the color from green to black but also destroying the healing phytochemicals.

**Green Tea's Secret**
The key phytochemicals in green tea, called polyphenols, have captured the attention of many scientific studies. They give Super Nano-Green Tea™ its special power.

Dr. Yukihiko Hara, noted researcher and a world authority on green tea, has found that its polyphenols help promote healthy blood sugar, blood pressure, blood lipids and fat levels.

Polyphenols have also been shown to protect DNA from damage inflicted from harmful chemicals and even radiation. Green tea’s polyphenols are also extremely effective as antioxidants capable of promoting a healthy immune system as well as providing extraordinary protection for the heart, kidneys and the skin*.

---

**Super Nano-Green Tea™ (8 fl oz/bottle)**

**Ingredients:** Highly Bio-available “Nanized” Grade A Fermented Japanese Green Tea Concentrate (Camellia sinensis), delivering 102 mg polyphenols per serving, Bifidobacterium (brevus, breve, infantis ss. infantis, longum), Enterococcus (faecalis TH10, faecium). Lactobacillus (acidophilus, bulgaricus, casei ss. casei, fermentum, helveticas ss. jaguri, plantarum), Streptococcus thermophilus, in a base of purified water, 20% organic grain neutral alcohol.

**Other Ingredients:** None (no toxic teaalkogens such as magnesim steareate, natural flavors [MSO], etc.)

---

**Recommended Use**
Adults or children (age 4 and up): Take 1/2 to 1 teaspoon mixed in 1/4 cup water or juice daily.

---

**Super Food Trio**
Three product kit. The comprehensive, quantum-state vitamin and mineral nutrient system, all from once-living, natural sources (no syntheses) which contain a “body of light”. Recommended for daily use for every adult and child and pet, too. Contains ample amounts of every nutrient essential for life and optimal health; clinically tested and proven.*

---

**Quantum Colostrom (60 Vcaps™)**
Pesticide-Free, Min. 21% IgG Whole Colostrum
Broad Spectrum Immune, Nerve, Strength and Whole Body Support*
- 100% Whole Colostrum (peptide-free) from healthy cows Not defatted (which compromises its intracellular transport)
- Broad-spectrum immune system* Contains human-active immunoglobulins with a whopping 21% minimum immunoglobulins (IgG and IgA)
- Richest source of natural MSM
A sulfur compound which helps promote a strong and healthy immune system*
- Rich in Lactoferrin (6mg/gram) A natural compound which helps to promote healthy oxygen transport in the blood

---

**Quantum Digest (60 Vcaps™)**
Quantum-State Plant Enzymes
Digestive Support & Detox*
- Highly effective enzymes for digestive support as well as whole body cleansing*
- To digest food, the pancreatic release protease to digest protein, amylase to digest carbohydrates and lipase to digest fat. Eating cooked foods spends large amounts of enzymes, leaving most people with large enzyme deficits.
- Enzyme deficiencies can contribute to constipation, hearing loss, arthritis, cystitis, diarrhea, hay fever, incontinence, allergies, depression, fatigue, mood swings, PMS, skin rashes, hot flashes, sinusitis, diverticulitis or irritable bowel syndrome.*

---

**Quantum Stomach Complex (60 Vcaps™)**
Stomach Nutraceutical Formula
Quantum-State Super Nutrients for Optimal Digestive Health*
- Synergistic, broad-spectrum phytonutrients for optimal digestive support*
- Powerful botanical extracts and premium-grade enzymes for unparalleled stomach support and detox*
- Features grade 10 Indian Noni, Green Tea Extract, synergists and plant enzymes
- 100% solvent-free vegetable capsules
- Excipient-free: no binders, fillers, glues or other toxic tagalongs as found in tablets and gelatin capsules

---

**Why use organic alcohol?**
Top grade, organic alcohol is nature’s perfect preservative. Its indigenous vasodilative properties function as a perfect transporter of our super-nanized phytonutrients into the blood to deliver almost immediate uptake, unparalleled by ordinary supplements.

For centuries, Oriental Medicine has known that nutrients preserved in alcohol directly target the liver, getting a faster, deeper response than when no alcohol is used. Concentrates preserved with alcohol have been used effectively for centuries. In contrast, tinctures made with a glycerine base cannot deliver the same effect as tinctures with an alcohol media. In addition, over time, nutrients degrade in the glycerine, slowly losing their potency.

Only the Best: We use only organic alcohol, free of pesticides and chemotoxins. (Avoid tinctures with conventional alcohol because typically it is contaminated with chemotoxins.)

Want to avoid alcohol? In a typical dose (1/2 teaspoon) of a “nano” concentrate, you receive about 1/90 of an ounce of alcohol. For those who want to avoid alcohol but still get the full benefits of the extract, simply place a dose of the extract (usually 1/8 teaspoon) in a cup and add 1/8 cup of very hot water. Wait for 5 or 10 minutes for the alcohol to gas off. (Alcohol boils at 172° F. [or 78.5° C.] and will gas off at temperatures below boiling.)

Nanized Green Tea
Highly Bioavailable Immune and Anti-Aging Support*

Nanized Green Tea
- "Unprecedented "nanized" delivery system for spectacular absorption of the green tea's healing phytonutrients.
- Research shows green tea supports anti-viral, anti-bacterial, anti-tumor, anti-mutagenic, and anti-ulcer functions.*
- Supports anti-hyperglycemic, anti-hypertensive, anti-hypercholesterolemic and fat reduction; helps protect DNA from radiation damage.*
- Powerful antioxidant action; helps suppress AGEs (Advanced Glycation End-Products)

What is "nanized" green tea?
The word "nano" means very, very small. A superb "nanized" tincture of green tea contains "beyond organic" green tea that has been "nanized" or pre-digested into very, very small particles which makes them extremely bio-available. Even those with poor digestion can rapidly absorb the "nanized" green tea.

Green Tea’s Secret
The key phytochemicals in green tea, called polyphenols, have captured the attention of many scientific studies. They give green tea its special power.

Dr. Yukihiro Hara, noted researcher and a world authority on green tea, has found that its polyphenols help promote anti-hyperglycemic, anti-hypertensive, anti-hypercholesterolemic, and fat-reducing effects. Polyphenols have also been shown to protect DNA from damage inflicted from harmful chemicals and even radiation. Green tea's polyphenols are also extremely effective as antioxidants capable of inhibiting mutation and formation of cancerous cells as well as providing extraordinary protection for the heart, kidneys and the skin.

Polyphenols and Cancer
Free radicals are dangerous compounds caused by many things such as exposure to radiation or internal chemical reactions that can attack your body's cells and harm your DNA. Free radicals can multiply, work together and initiate cascading chain reactions that, over time, can trigger pathological cell mutations which may lead to cancer.

The extraordinary bio-availability of the polyphenols in green tea allows it to easily outperform other green tea sources delivering antioxidants that neutralize free radicals, halting their potentially lethal cascade and converting them to non-toxic compounds.

*This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
Polyphenols have also been shown to protect healthy cells from mutation and cancer. One study on the anti-carcinogenic properties of green tea showed a 44% inhibition of prostate cancer with no toxic side effects. Another study indicated that 50% of mice treated for tumors with orally administered green tea polyphenols remained tumor-free with a 70% overall increase in life expectancy. The antioxidant “oomph” of green tea has also been recommended as a preventative measure for heart disease, kidney disease, and skin damage from ultraviolet light exposure.

**Anti-Aging Effect**
Scientific research shows a direct correlation between the aging process and the accumulation of harmful compounds called Advanced Glycosylation End products (AGEs) within the body. In one cutting-edge study conducted by the University of Shizuoka, researchers observed that the formation of AGEs were suppressed by the polyphenolic action of green tea, thus acting as an agent to greatly decrease the risk of age-related disease.

**Fat and Cholesterol Blocker**
Green tea is also an excellent addition to any sensible weight control program. Fat digestion is reduced through green tea’s inhibition of the enzymes responsible for fat breakdown, so rather than accumulating fat in unwanted places, your body simply passes it through. Green tea’s thermogenic effects also help to maintain normal body weight. A compelling study showed that taking three 90 mg. doses/day of green tea extract burned 266 more calories per day than those who did not use the extract. That is more calories than an average session on a treadmill (and they weren’t even using a nanized version). Additionally, green tea polyphenols help prevent LDL cholesterol from forming atherosclerotic plaques. That’s great news for those concerned about heart and artery disease.

**Diabetes and Green Tea**
The news about fat and cholesterol may be of special interest to the millions of diabetics who have to watch their weight to maintain their health. What’s more, green tea is able to help quell hyperglycemia by inhibiting α-amylase, the enzyme that converts carbohydrates into glucose. For those who struggle with high blood sugar levels, green tea may provide a key benefit.

**Relief For Body and Mind**
Green tea’s benefits not only help the body, but the mind and spirit as well. Green tea users can expect powerful antioxidant cleansing and protection. Green tea is also famous as great support for recovery from mental depression, helps enhance alertness, relief of mental fatigue, and improvement of mental function without the feeling of nervousness or being jittery.

**Why use an alcohol tincture?**
Top grade, organic alcohol is nature’s perfect preservative. Its indigenous vasodilative properties function as a perfect transporter of supercharged phytonutrients into the blood to deliver almost immediate uptake, unparalleled by ordinary supplements. For centuries, Herbal Medicine has known that nutrients preserved in alcohol directly target the liver, getting a faster, deeper response than when no alcohol is used. Tinctures preserved with alcohol have been used effectively for centuries. In contrast, tinctures made with a glycerine base cannot deliver the same effect as tinctures with an alcohol media. In addition, over time, nutrients degrade in the glycerine, slowly losing their potency.

Only the Best. The best alcohol to use is organic alcohol, free of pesticides and chemotamison. (Avoid tinctures with conventional alcohol because it is typically contaminated with chemotamison.)

**Want to avoid alcohol?** In a typical dose (1/2 teaspoon) of tincture, you receive about 1/50 of an ounce of alcohol. For those who want to avoid alcohol but still get the full benefits of the tincture, simply place a drop of the tincture (usually 1/2 teaspoon) in a cup and add 1/4 cup of very hot water. Wait for 5 or 10 minutes for the alcohol to gas off. (Alcohol boils at 172°F or 78.5°C and will gas off at temperatures below boiling.)
