Zinc (as Chelazome®-bis-glycinate chelate, citrate and monomethionine.....	10 mg
NSB™ (Neural Support Blend).....	102.5 mg

SYNOPSIS AND PRODUCT USAGE!

SYNOPSIS AND REVIEW: Adaptacin is a formula designed for patients in need of adrenal support. This product utilizes the highest quality, most scientifically-validated compounds currently available. All botanicals are standardized for maximum efficacy and are classed as adaptogens.

INDICATIONS: Adaptogens are a class of herbs used to address imbalanced adrenal function and resultant conditions such as fatigue, allergy, and/or hypoglycemia. In supporting the Adrenal Glands, adaptogens are best used in conjunction with an insulin-sparing diet. Use Adaptacin whenever Cortisols are low, in conjunction with Inhibitory or Excitatory support formulas to rebalance the HPA axis.

CONTRA-INDICATIONS: No specific contraindications known other than for individuals hypersensitive to any of its ingredients. Licorice may be of concern in some individuals with hypertension. However, Adaptacin's glycyrrhizic acid content falls within the safety profile of licorice in hypertension at a maximum dosage of six tablets per day.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
